Oakland, Ca. 94607-4240

Attn: Kurt Landensack  
Manager, Water Supply Improvements Division

Re: Proposed Joint Water Supply Project-EBMUD, City of  
Sacramento, and the County of Sacramento.

Reference is made to the presentation concerning the subject  
proposed project which was made to the American River Parkway  
Advisory Committee on May 30 by EBMUD representatives.

The subject proposed project involves a negotiated agreement among  
EBMUD, the City of Sacramento, and the County of Sacramento to  
pursue project level studies for a joint project to divert water from  
the American River near the confluence with the Sacramento River.

The Parkway Advisory Committee wishes to inform you that it  
favors a project which diverts American River water near the  
confluence with the Sacramento River, but does not favor or will not  
support any EBMUD project for diversion of its contracted water  
entitlement from Lake Natoma via the Folsom South Canal.

Since this project is in its early conception, we look forward to  
examination and review of more complete information as the project  
develops.

Please keep us informed.

Sincerely,

American River Parkway Advisory Committee-

Elmer Aldrich
